

A Pathway Home for Ling

Timothy and Carolyn had two healthy sons but longed for more children. After talking to families who had adopted from China and learning about the culture, they chose to adopt a little girl from Asia. What makes their story unique is that their youngest son was born with albinism. Therefore, when considering a child that would be perfect for their family, they selected a child with albinism, and they brought their first adopted daughter home in 2007.

In 2009, they learned about Ling, an 11 year old with albinism and partial blindness. They knew that she was meant to be a part of their family as well. With the financial assistance of *Pathways for Little Feet*, Ling was adopted and now has a loving family and a brighter future.
